London October 29 - The Morning News' editorial regards Major Marchand's movements from Pashoda to Khartoum as indicative of a yielding on the specific question in controversy;

It is assumed that he will push on to Cairo in order to be in direct communication with the French government, and that on reaching there he will represent to Paris the impossibility of remaining at Fashoda under existing circumstances and will ask authority to withdraw his entire

Manzenillo, October 28.-The United States gupboat Hist arrived here tonight with General Leonard Wood, commander of the military department at Santiago, accompanied by Lieutenant Matthew Hanna. On landing General Wood was visited by Colonel Pettit and his adjutant and he was subsequently received by Colonel Pettit's entire regiment. General Wood thea vis fited the barracks, hospitals, palaces, cus-

tom houses and postoffices. Colonel Pettit reports that the Cuban general, Rios is apparently making every effort to prevent the disbanding of his troops. The Cuban commander wishes all the sugar estates in the neighborhood to tell him bow many men they can employ and ne will guarantee to supply all required on condition that only soldiers are quired on condition that only soldiers are employed. The planters unanimously refuse to fall in with such an arrangement, considering that at would be a trades union of the worst possible kind and would also tend to keep up the Cuban military organization, which in the interests of the island the planters are very anxious to break up. In their opinion it would be better to have no commerce than to attempt it on such conditions.

There is practically no sickness in Colonic Petiti's regiment and yellow fever has been unknown here for several years. Manzaulilo is in good sanitary condition.

Kinley returned to Washington this moraing and held the regular Friday cabinet meeting. Secretary Hay brought with him from the department of state a cablogram received from Paris this morning, in which Commissioner Day recited the latest developments by the peace commission.

As one of the cabinet officials expressed it: "The situation is eminently satisfactory to us and our commissioners are carrying out their instructions in the true spirit in which they were given."

Secretary Hay said there has been so material change in the situation stoce the adjournment of the commission yesterday. and while he is not at liberty to discuss the progress made by the commission, he was warmated in stating that the published reports from Paris are substantially accurate so far as the Cuban debt discus-
